TRAINING TITLE

SEARCH & RESCUE

VENUE

Dubai, UAE

DURATION

5 Days

DATES

13 - 17 November 2022

PRICE

US\$4,000 per attendee including training material/handouts, morning/afternoon coffee breaks and Lunch buffet.

TRAINING INTRODUCTION

This course provides theoretical and practical knowledge on planning and management of search and rescue (SAR) organisations. It equips those involved in SAR operations with the knowledge and skills required to carry out their respective roles effectively and efficiently in an integrated emergency response system.

TRAINING OBJECTIVES

Provide participants with knowledge of search and rescue management concepts. Develop participants' knowledge to validate and oversee the implementation of key components of SAR, in compliance with relevant local and international regulations.

TRAINING AUDIENCE

- Senior-level personnel
- Chiefs or deputy chiefs involved in the management and administration of a SAR organisation or unit
- Air Traffic Services providers.

TRAINING OUTLINE

- SAR Administration
- Organization of SAR Services
- Communications in SAR
- International Provisions

- Cooperative Protocols
- SAR proficiencies
- SAR Operating Procedures
- Funding for SAR Units
- Contemporary Trends, Needs and Objectives
- Review of Accidents and Incidents

TRAINING CERTIFICATE

MAESTRO CONSULTANTS Certificate of Completion for delegates who attend and complete the training course

METHODOLOGY

Our courses are highly interactive, typically taking a case study approach that we have found to be an effective method of fostering discussions and transferring knowledge. Participants will learn by active participation during the program through the use of individual exercises, questionnaires, team exercises, training videos and discussions of “real life” issues in their organizations.

The material has been designed to enable delegates to apply all of the material with immediate effect back in the workplace.
